Art Unit: 1613

1. The amendment filed April 11, 2001 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The inclusion of the 3,5 isomer and its designation as AP-5.

Applicant is required to cancel the new matter in the reply to this Office action.

The disclosure is objected to because of the following informalities: The application is C-I-P.

Appropriate correction is required.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 5-7, 14 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The description of the 3,5 dicarboxy compound.

4. Claim 1 and 5- 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 does not recite the required anion. Claim 1 requires 1,3,5 substitution.

The compounds of claim 7 lack antecedent basis in claim 1.

Art Unit: 1613

5. Claims 28 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Tamura. See IIIa.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Gerstl whose telephone number is (703) 308-4531.
